ABOUT ME

Motivated Computer Science & Engineering student with a strong foundation in Java, Data Structures and Algorithms, and problem-solving. Skilled in developing web applications using React, Spring Boot, and MySQL. Experienced in building full-stack projects with a focus on functionality, performance, and user experience. Seeking opportunities to contribute to innovative software development projects and grow as a software engineer.

EDUCATION

Vellore Institute of Technology – Amaravati **2024-2029**

Integrated M.Tech in Computer Science and Engineering 8.87cgpa

Sathiya Sai higher secondary school – Nilgiris **2022-2024**

Tamil Nadu State Board of Education 80%

TECHNICAL SKILLS

- **Programming:** Java, Python.
- **Web**: HTML, CSS, JavaScript, React,Angular.
- **Databases:** MySQL, NoSQL.
- **Tools:** GitHub, SpringBoot.
- **OS**: Windows, Linux

SOFT SKILLS

- Communication
- Adaptability
- Time Management
- Critical Thinking
- Problem Solving

ACHIEVEMENTS

Project Development: Built academic and personal projects in full-stack development, e-commerce, and assistive technology.

Problem-Solving Skills: Practiced Data Structures and Algorithms using Java to improve logical thinking and coding skills.

Technical Proficiency: Gained practical experience with Git, GitHub, and web application deployment tools.

PROJECTS

- **Project Name:** Water Notification System – Neighborhood Water Alert
- **Domain/Technology:** Full-Stack Web Development (React, Node.js, Express.js, MySQL, Socket.IO)
- **Duration:** 4 Months
- **Description:** Developed a real-time notification system to keep residents informed about neighborhood water supply updates. Integrated frontend and backend services with MySQL database connectivity and Socket.IO for real-time communication. Focused on delivering timely notifications and improving access to local water supply information.
- **Project Name:** FlipMyCart – E-commerce Website
- **Domain/Technology:** Web Development (Angular, TypeScript, HTML, CSS)
- **Duration:** 6 Months
- **Description:** Designed and developed an e-commerce website featuring product browsing, shopping functionality, and seller-oriented features. Worked on frontend development, UI design, and application functionality using Angular and TypeScript. Focused on creating a user-friendly interface and providing a smooth shopping experience.
- **Project Name:** Spotify and Instagram Clones
- **Domain/Technology:** Frontend Web Development (HTML, CSS, JavaScript)
- **Duration:** 4 Months
- **Description:** Developed frontend clones inspired by Spotify and Instagram to practice web development and UI design. Created music-streaming-inspired layouts and social media interfaces replicating key visual elements of the original platforms. Focused on responsive layouts, styling, and user experience while strengthening skills in HTML, CSS, and JavaScript.
